

*Chez Pierre*

Presents ...

**Monday, February 24<sup>th</sup>, 2025**

**12:00 pm -1:00 pm**

**Duboc Room – 4-331**

## **Chez Pierre Seminar**

**Alexei Tsvelik, Brookhaven National Laboratory**

**“RKKY driven non-Fermi liquid behavior  
in Kondo lattices”.**

It is usually believed that RKKY interaction leads to magnetic order. I will discuss conditions under which it may be a source of non-Fermi liquid behavior and present a solvable model to support my conclusions.
